Q4

Want to know more about LTIMindtree capabilities?

We help our customers with Insurance product implementation journey and ensure products stay compliant.

LTIMindtree’s dedicated CoE of Insurance experts governs and maintains proprietary knowledge assets, implementation repository, training material, and domain artifacts.

Demand fluctuations? LTIMindtree’s Insurance practice is 3,000+ strong and can ramp up as per your needs.

LTIMindtree Integration Services leverage pre-built, out-of-the-box integrations along with our micro-services architecture and API driven service enabling clients to overcome legacy limitations.

We even support migration to other PAS using toolkits that take care of federal regulatory requirements, while all state-related changes are usually implemented with minimal peripheral customization, keeping the core intact.

Q5

Still need more reasons to choose LTIMindtree?

With LTIMindtree, you can embed AI and Analytics into your Insur^{ity} ecosystem. LTIMindtree Mosaic is a platform that delivers – independent, highly scalable, modular, efficient and consistent. It can ingest structured, semi-structured and unstructured data into a data lake for automation capabilities using cognitive intelligence and machine learning to derive actionable insights. Its elastic and technology-agnostic framework boasts advanced analytics-as-a-service capabilities that can be called on demand.

Driving innovation through solution add-ons that combines Automation, Intelligence and Experience

Pricing Adequacy	Underwriting Productivity	Underwriting Discipline
 <p>Submission Triage</p> <p>Ease of submission intake into systems from various formats (structured and unstructured) using AI techniques</p>	 <p>Risk Insights</p> <p>Risk evaluation by analysing internal and third party data, supported by rich visualization of risks</p>	 <p>Virtual Risk Inspection</p> <p>Automating risk inspection using 3rd party data (substitute physical survey and thorough verification)</p>
 <p>Risk Scanner 365</p> <p>Scanning existing Book of Business for risks to drive loss prevention, trigger endorsements or initiate non-renewal</p>	 <p>Integration Adaptors</p> <p>Pre-built adaptors to integrate with third-party data providers like ISO, Pitney Bowes, ChoicePoint, MSB etc.</p>	 <p>Predictive Pricing</p> <p>Risk scoring and loss ratio prediction for driving pricing accuracy using advanced analytics</p>

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 750 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
