### Business intelligence

Boost performance and lower costs with interactive claims reports and analysis

80+

Organizations supported across insurers, municipalities, self-insureds, and TPAs

20

Lines of business in production

*"In our evaluation, the Insurity team overwhelmingly beat out the competition.... Insurity ClaimsXPRESS outpaced other systems on approximately 80% of the functionality and user interface [RFP] questions, so the scale was heavily weighted toward Insurity ClaimsXPRESS in terms of its feature set. Being user-friendly and intuitive is important because it will enable our staff to quickly ramp up, streamlining the learning curve. And combining these two key aspects – functionality and user-friendliness – Insurity ClaimsXPRESS easily became our system of choice."*
