Ready. Set. Go Perspecta.

Provider practices spend more than $2.7 billion & health plans spend more than $2 billion annually on inefficient & redundant work to ensure accuracy of directory data.

The impact of inadequate provider directories

consumers
Creates barriers to care, "surprise billing," higher out-of-pocket costs, & overall dissatisfaction

providers
Administrative burden and cost of responding to continuous requests to update & verify provider directory information

health plans
Pay the steep price of managing disparate systems, formats, requirements, & vendors resulting in regulatory fines

INTUITIVE. ACCURATE. **AWESOME.**

Unhappy consumers, low data scores, network leakage, and costly compliance issues can result from inadequate provider directories. Yet, the cost of resources and IT infrastructure may be even higher.

You need an innovative, accurate directory solution to command your provider network. You need AI-powered Viiad.

Viiad Provider Directory is more than just a provider search solution. It's easy to use, super smart, and intuitively designed to keep provider data accurate and consumer experience positive.
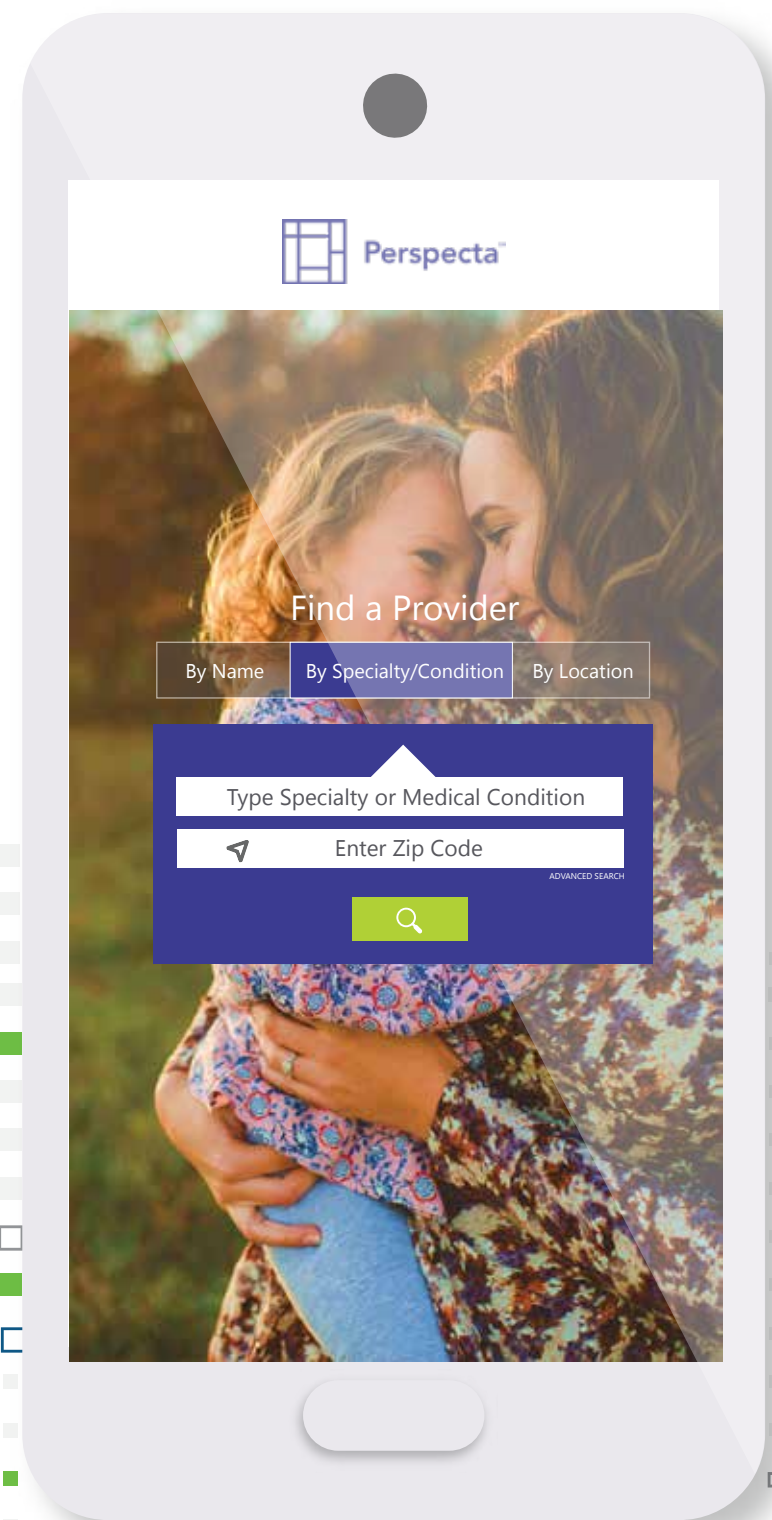

Consumers can search, compare, and select the right providers based on their needs (and yours!) Our advanced filtering uses your own pre-determined criteria to prioritize provider search results.
